some may possibly wonder to find here no record of ballet in italy or at the opera houses of madrid lisbon vienna buda pest berlin copenhagen stockholm warsaw or st petersburg not to speak of the united states and south america this however would be to miss somewhat the author s purpose which is not to trace the growth of ballet in every capital where it has been seen to do so effectively was hardly possible in a single volume a whole book might well be devoted to the history of the art in italy alone herein only touched upon as it came to have a vital influence on france and england in the nineteenth century we have already had numerous volumes dealing with russian ballet and since the ground has been extensively enough surveyed in that direction there could be no particular advantage in devoting more space to the subject than is already given to it in this work the purpose of which only is to present as far as possible from contemporary sources some leading phases of the history of the modern art of ballet as seen more particularly in france and england

from t j clark comes this provocative study of the origins of modern art in the painting of parisian life by edouard manet and his followers the paris of the 1860s and 1870s was a brand new city recently adorned with boulevards cafes parks great exhibitions and suburban pleasure grounds the birthplace of the habits of commerce and leisure that we ourselves know as modern life a new kind of culture quickly developed in this remade metropolis sights and spectacles avidly appropriated by a new kind of consumer clerks and shopgirls neither working class nor bourgeois inventing their own social position in a system profoundly altered by their very existence emancipated and rootless these men and women flocked to the bars and nightclubs of paris went boating on the seine at argenteuil strolled the island of la grande jatte enacting a charade of community that was to be captured and scrutinized by manet degas and seurat it is clark s cogently argued and profusely illustrated thesis that modern art emerged from these painters attempts to represent this new city and its inhabitants concentrating on three of manet s greatest works and seurat s masterpiece clark traces the appearance and development of the artists favorite themes and subjects and the technical innovations that they employed to depict a way of life which under its liberated pleasure seeking surface was often awkward and anxious through their paintings manet and the impressionists ask us and force us to ask ourselves is the freedom offered by modernity a myth is modern life heroic or monotonous glittering or tawdry spectacular or dull the painting of modern life illuminates for us the ways both forceful and subtle in which manet and his followers raised these questions and doubts which are as valid for our time as for the age they portrayed
